

Curriculum Statement

The rationale that underpins all of our work is to prepare children with the skills, knowledge and values to function effectively as local, national and global citizens - preparing them for the world community that they will grow up in.

Our curriculum underpins this and through it we aim to:

- **motivate and inspire** all children to be successful, independent learners who have positive attitudes towards learning, make progress and achieve well
- **encourage all children to be confident** individuals who are able to take responsibility, make appropriate choices and live safe, healthy, fulfilling lives
- **encourage all children to be responsible** citizens who make a positive contribution to society, are able to make independent choices, demonstrate respect and positive attitudes to adults, to each other and support each other's learning

and provide a curriculum which :

- **is broad and balanced**, well-resourced and creative, that meets the needs of all pupils, enables all pupils to achieve their full educational potential and make good progress in learning
- **promotes good learning behaviour** and safety alongside children's spiritual, moral, social and cultural development and responsibilities
- focuses on skills for lifelong learning to include motivation, resourcefulness, resilience, self-awareness and evaluation.
