

## Year 3 Summer Term Home Learning

Dear Year 3 Parents/Carers

Thank you so much for your efforts with your child's last home learning projects. It is a great time for you to work and learn together. We hope you enjoyed it as much as the children. Our topic this term is **Storms and Shipwrecks**. We look forward to seeing how the children engage with their topic at home. A letter regarding our sharing assembly will be sent home before half term, where we look forward to displaying the childrens' work.

Many thanks

The Year 3 team

### Create a PowerPoint Presentation

Create a PowerPoint about one of the following storms.

- Hurricane Katrina, 2005
- Hurricane Irene, 2011
- Hurricane Sandy, 2012
- St. Jude storm, 2013

We would love to share your child's research and ICT skills with the rest of the class.

### Artwork

Can you sketch a storm using the skills from your recent art lessons? You could present it in a homemade frame if you like!

YouTube have some great tutorials for using watercolours.

### Build

Build a Viking ship  
Can you make it float?  
Be as creative as you like

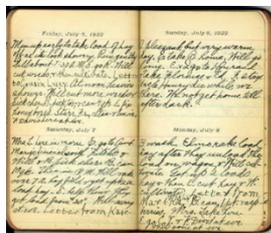

### Science: Grow your own

Perhaps you would like to grow your own plant and take photos of each stage that it grows. This could be a vegetable or fruit!

### Write a diary entry

Think about what it would be like to live on a ship as a Viking and write a diary entry.

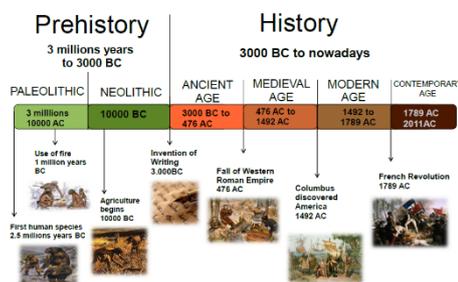

### Make a Vikings quiz

Test your friends on their Viking knowledge. The answers can be multiple choice or True/False.

### Create a Viking Timeline

Can you find out when the Vikings came to Britain? Can you find out about the things the Vikings did through history? Do not forget...it needs

to be in chronological order.

### Make a Viking fact file

Create a booklet with all the facts you can find about the Vikings. Have you seen any interesting ones you could share with your class?
