

MATHS

We will be mastering our ability to tell the time and read graphs along with getting to grips with fractions this term.

SCIENCE

We are looking forward to studying lifecycles (including insects, amphibians and humans) when we hatch our own chicks! We will also investigate how the universe began: planets, stars and galaxies..!

PE: We will be making the most of the good weather for athletics and to play rounders.

TRIPS

We look forward to visiting Winchester Science Museum on the 14th June.

LITERACY

Daily phonics and guided reading sessions.

We will be getting imaginative as we write fantasy tales, and then will become masters of suspense as we create our own horror stories. Using our expert knowledge of chicks, we will be writing instructions for keeping them safe, happy and healthy!

RE

We will be comparing creation stories from around the world.

BIKEABILITY

The participating children will be learning how to cycle safely and maintain their bicycles during our bikeability courses on 25th-26th and 27th -28th April.

SPACE!

Art, music and DT

We will be creating rockets in a junk-heap challenge, investigating Holst's Planets' Suite and designing our own planets!

HISTORY

The children will be investigating the great Space Race, how space travel has developed through time and famous astronauts.!

Year Five
Summer Term
