Year 6 Summer 1 Curriculum Map

Science

What Light Does:

- Recognise that light appears to travel in straight lines.
- Use the idea that light travels in straight lines to explain that objects are seen because they give out or reflect light into the eye.
- Explain that we see things because light travels from light sources to our eyes or from light sources to objects and then to our eyes.
- Use the idea that light travels in straight lines to explain why shadows have the same shape as the objects that cast them.

Geography

Water World – learning about the coasts of the UK and overseas.

Writing

The Wind in the Wall by Sally Gardner

Theme:

Fate versus free will.

The children will be writing their own gothic horror narrative using the ideas and themes from the book. During the unit, they will practise character and setting descriptions, writing in the passive voice and using historically accurate language.

Reading

This term we will be focusing on our reading pace, learning how to skim and scan and familiarising ourselves and practising exam-style questions.
